Community Involvement

The North End Community Health Centre works with many agencies and community groups to provide programs and initiatives to area residents. The Centre also participates in various community events. We value our role in the community and welcome opportunities to promote health awareness and healthy lifestyles.

Health practitioners at the Centre also do outreach work with clients of other organizations, agencies and many of the shelters in the area. These practitioners offer a helping hand to ensure all people have access to health care, regardless of their current situation.

We feel the health and wellbeing of the members of our community is a shared responsibility, and we take pride in partnering with the many agencies and organizations we work with.

North End Community Health Centre

Providing quality health care with, and to, the residents of North End Halifax.

2165 Gottingen Street
Halifax, NS B3K 3B5 Phone: 902.420.0303

Mission

To support North End Halifax to be a healthy community by offering leadership in primary health care, through health services, education, community development and advocacy.

Vision

Better health for the people we serve.

Values

We are committed, in all we do, to uphold the values of:

- Collaboration
- Inclusion and diversity
- Shared decision making
- Transparancy and open communication
- Teamwork
- Respect
- Accountability
- Education, development and improvement

About Us

The North End Community Health Centre provides primary health care for individuals and families of community. Through education, we work to strengthen our client's ability to take responsibility for their health and well being, and offer advice to our clients on accessing the help and resources they need.

The North End Community Health Centre was founded in 1971 by a group of local residents who identified a need for health services in their community. Today we operate as a non-profit, collaborative and interdisciplinary Centre with our health team.
A diversely skilled, volunteer Board of Directors governs the organization through leadership and management assistance.
We welcome new volunteers to the Centre for various volunteer opportunities. Volunteer information is available by calling the Centre or visiting the website.

Our Health Care Team

We have a unique, collaborative practice at the North End Community Health Centre, where physicians, nurses, mental health care workers, a dietician, and other health care professionals come together to serve our clients.

Each member of our health care team works to ensure we address our clients' total health and well being, to improve the lives of our clients.

Our Services

The North End Community Health Centre offers many services for registered clients and residents of the area. We offer health care and health promotion programs ranging from diabetic nutrition counselling to well baby appointments. We provide these services to improve health, educate, and promote healthy lifestyles. We consider health to be about the whole person; including physical and emotional health.

Our Programs

Programs at the North End Community Health Centre vary and are responsive to community requests. The Centre offers programs on a continuous basis with program offerings changing each season. Programs are open to all members of the North End Community free of charge.

Please call the Centre or check the website for information on programs that are happening now, and are coming up, that you might be interested in.
